

Midland Region GSD Group - October 6th 2013
Judge Paul Rattigan

Minor Puppy Female 6 - 9 months

VP1 - Lararth Ritzy - Bowen D&S

Ch Conbhairean Waro - Conbhairean Chakira

8mths. Over medium size, middle strong female, good pigmentation, normal wither, firm back, normal croup, strong thighs, very good hind angulation, correct front angulation, stands correct in front, with good bone, legs and feet. From a walk to a fast gait she moves with great fluidity keeping a pleasing overline.

VP2 - Samaravic Kamilla - Taylor, J&V

Joker von Eichenplatz - Samarvic Shayla

7 mths. Over medium size, middle strong female with good pigmentation, good head and expression, normal wither, firm back, slightly short croup which is accentuated by a somewhat high tail set, very good angulations fore and rear, stands correct in front with good bone, legs and feet. Good mover.

Minor Puppy Male 6 - 9 months

VP1 - Clynalwin's Kayson - Kearnan, S

Tormenstorp Never Ever - Clynalwin Dee

6mths. Over middle size and strength, good head and expression, normal wither, firm back normal croup, well angled hindquarters, but would like more second thigh, good front angulations, but slightly deep in forchest, good bone, legs and feet. Very harmonious on the move.

VP2 - Silkenwood Tam - Bibby, H

Ch Indo v Tamarspitze - Silkenwood Dayna

7 mths. Medium size and strength, good head, expression is ok but the jaw should be slightly stronger, normal wither, firm back, which tends to fall away somewhat. Normal croup, good hind angulation, good forechest, slightly steep upperarm, stands a little narrow in front, with good bone, the feet are a little splayed and the pasterns a little weak. Good side gait, but a little close behind.

P1 - Marinita Sydney - Guy AS & M/ Sydney, M

Hausmailand Quattro v Marinita - Kazaura Yazmin v Marinita

7 mths. On the limit of size, a well pigmented male with good head & expression, low on the wither, back should be firmer, the croup is steep but of good length, the second thigh should be broader, good front angulation, stands slightly wide in front and the elbows are open, has a tendency to amble on the move.

Puppy Female 9 to 12 months

VP1 - Nikonis Zsa Zsa - Baker, M & Cassidy P

Sunyi vom Huhnegrab - I'll be There for Nikonis

Nikonis

9 mths, Large, medium strong typey female with excellent head and expression, dark eyes, good reach of neck into normal wither, back is firm and dry, to be hypercritical i would like a shade more length on the croup, broad thighs, good angulations, good under and overline, harmonious proportions, correct front and back with good bone, legs and feet, shows absolute fluidity in movement with the correct sequence of steps and forward reach. My opinion is that she will go on to have a super career as she is of excellent quality.

VP2 - Danisof Blance - Latifi, P

Milow von Dakota - Daisy von Team Arlett

10mths, beautiful grey sable, still very babyish in attitude, middle size and strength, beautiful head and expression, normal wither, firm back, good croup, good under and overline, good pigmentation, stands correct front, with good bone legs and feet. Excellent mover who had every chance to win the class having been called out in first place, just started to tire and fidget during the closing phases of the class.

VP3 - Tramella Katja - Rambridge R/Sygrove K

Fulz de Zenevredo - Ch Tramella Jenta

10 mths. The best moving female in the class, good head and expression, slightly light eye, normal wither, good reach of neck, she appears to have a problem with the sacrum which seems to drop away, not hinged but spoils the harmony of the female, problem accentuated when she pulls into the lead, this should not be criticised too much as she shows very good fluidity of movement at all paces.

VP4 - Cilfachau Luna v Marinita - Guy AS/Sydney M

Ch Elmo vom Huhnegrab x Marinita Maara

11 mths. Good looking female over medium size and strength, good head and expression, lacks a little hindthrust, on initial assessment I had her higher placed but her movement was not as good as she went on.

VP5 - Vernabell Enya - Severn, G

Ch Indo von Tamaraspitze - Gayvilles Asia

11 mths. Large, middle strength female, slightly overshoot, good head and expression but left ear is still to firm, normal wither, firm back, a little steep on the croup, good hind angulation, needs more second thigh, good underline, slightly steep upperarm, correct front, not quite as fit as she could be.

VP6 - Stesueca Frankie - Brown, S

Tormenstorp Never Ever - Draycore Jazz

10 mths. Middle size, strong female, good head and expression, normal wither, firm back short croup, good strong thighs, good rear angulation, stands a little straight in the front, the presentation should be better.

**Long Coat Special Puppy Female
6 to 12 months**

VP1 - Conbhairean Inka - Dooley, S&W

Joker von Eichenplatz - Conbhairean Xara

9 mths beautiful sable bitch, very good head and expression, normal wither, she is presently a little loose all over and she could use a shade more foreleg, very good hindquarters.

Puppy Males 9 to 12 months

VP1 - Kyshall Nitro - Morgan, L

Jarno von Santamar - Kyshall Larana

11 mths. Middle size, middle strength, good head and expression, normal wither, firm back, good length and lay of croup very good rear angulation, good fore angulation, good bone legs and feet, the elbows are a little open, shows good fluidity in his movement which gained him first place.

VP2 - Gazjackhof Hank - Simpson, J&M

Yupp vom Hammelsbacher Hof - Shantera av Thorarinn

10 mths Excellent head and expression, normal wither, croup although long is a little flat. For his age he is a little over developed in the chest which makes him look shorter in the foreleg than he is. As he gets older it may well be too deep.

Special Long Coat Males 6 to 12 months

VP1 - Iolanda Dax - Exley, P & Fitton, C

Xeron vom Fitchenschlag - Hawan von Mining

8 mths over medium size and strength, well pigmented, normal wither, slightly steep croup and the hair being curly over the croup slightly distracts, good broad hindquarters, stands correct, good bone and feet.

VP2 - Conbhairean Indo - Dooley, S&W

Joker von Eichenplatz - Conbhairean Xara

9 mths, large, very good head and expression, normal wither, straighter in the back, the croup is a little flat, good underline, good bone, good hindquarters, stands correct.

I enjoyed assessing the Baby puppy classes and was delighted to see so many correct types.

The Junior handlers impressed me very much with their knowledge and handling abilities, this bodes very well for the future.

Paul Rattigan

Midland GSD Regional October 6th 2013

Judge: Rene Rudin SV

Junior Females 12 - 18 months

SG1 - Samphil's Alayna - Connolly A/Young S & Seymour V
